Index

- 3 Kit list
- 4 How the AirCube router is setup
- 4 Setup diagram
- 5 Connecting your mobile device
- 5 Further setup help & support
- 6 Support and problem solving

Kit list

- 1 NanoStation
- 1 Power box and fixing plate
- 1 Mains power cable
- 1 White Internal Ethernet cable
- 1 Black External Ethernet cable
- 5 Cable Ties
- 1 AirCube Router
- 1 Floor Gromet

AirCube router setup

1. Your AirCube, also known as the router will now be available via WiFi to connect any internet device.

2. You will now be able to use both of the spare Ethernet ports (2&3) on the AirCube to connect to your TV, computer equipment, or a digital box. Please note, you'll need to purchase an Ethernet cable for each.

Setup Diagram

Connecting your mobile device

1. Look at the back of your Aircube for the Wi-Fi Network name/presence, and search for this on the connections page of your Phone, Tablet or TV etc.

2. Select and press connect on you mobile device

3. Enter the Wi-Fi password located on the back of your Cube

(Please note this also located on the bottom of the Cube
Example WPA2: **abCD1234ef** Enter the blue details)

Please note: to avoid a potential callout charge, the reset button located at the bottom of the device must not be pressed.

Your setup is now complete
